Shahada, Maharashtra, India

PROFESSIONAL SUMMARY

Driven Computer Science undergraduate (JNV) with multi-language programming expertise (Java, Python, JavaScript, C/C++) and 2 internships spanning Java development and AI/ML. Completed 7 industry job simulations with Tata, AWS, Deloitte, Skyscanner, and JPMorgan — demonstrating initiative beyond the classroom. Seeking a Java Developer Internship at an IT services firm to deliver real engineering impact.

TECHNICAL SKILLS

Languages	Java, Python, JavaScript (ES6+), C, C++, SQL
Web / Cloud	React.js, Node.js (basics), AWS Solutions Architecture (Forage), MongoDB (basics)
AI / Data	Machine Learning, Data Analysis, Data Labeling, Model Training & Evaluation, GenAI
Engineering	OOP, SDLC, Debugging & Testing, Technical Documentation, Git, Eclipse IDE
Soft Skills	Problem-Solving, Analytical Thinking, Team Collaboration, Self-Management

EXPERIENCE

AI & Machine Learning Intern | iBase Electrosoft LLP

Apr 2026 – Present

- Applied supervised and unsupervised ML techniques across 3+ real-world datasets, contributing to model training and evaluation pipelines under senior guidance.
- Assisted in data preprocessing, feature selection, and performance benchmarking, improving model accuracy iteration-over-iteration.
- Documented AI model behaviors and findings in structured reports, enabling team knowledge sharing and reproducible experimentation.

Java Programming Intern | EduBridge

Apr 2024 – Jun 2024

- Engineered 3+ Java applications leveraging core OOP principles (inheritance, polymorphism, encapsulation), reducing code redundancy by ~30% through modular class design.
- Executed structured debugging and unit-testing cycles, identifying and resolving 15+ logic defects to deliver defect-free final builds.
- Collaborated on application architecture planning, improving requirement clarity and cutting project rework by an estimated 20%.

Technical Intern – Software Development | EduBridge

Jun 2023 – Mar 2024

- Completed 8+ software development assignments covering SDLC phases end-to-end: requirements, design, implementation, and documentation.
- Authored technical documentation for 5+ project modules, streamlining team knowledge transfer and reducing onboarding friction.
- Independently managed 4 concurrent task streams, delivering all ahead of deadline in a remote, self-directed work environment.

PROJECTS

AI Content Quality Evaluator *Python · NLP · AI*

- Reviewed and scored 200+ AI-generated content samples across accuracy, relevance, and tone using a structured 5-dimension evaluation rubric.
- Delivered written feedback reports that directly informed AI model fine-tuning, resulting in measurable improvements in output professional quality.

AI Response Behavior Analyst *AI · QA · Data Analysis*

- ▶ Systematically tested 5+ AI model response scenarios, flagging edge-case failures and inconsistencies against defined quality benchmarks.
- ▶ Built a reusable evaluation checklist that standardised the review workflow and reduced per-batch analysis time by ~25%.

E D U C A T I O N

Diploma in Computer Engineering State Board of Technical Education, Maharashtra	Expected 2026
Secondary School Certificate (SSC) Jawahar Navodaya Vidyalaya (JNV) — National Entrance Selection	2024

C E R T I F I C A T I O N S & V I R T U A L J O B S I M U L A T I O N S

▶ Skyscanner – Front-End Software Eng. Simulation	Forage	May 2026
▶ J&J – Robotics and Controls Job Simulation	Forage	May 2026
▶ Artificial Intelligence & Machine Learning	iBase Electrosoft LLP	Apr 2026
▶ AWS – Solutions Architecture Job Simulation	Forage	Jan 2026
▶ Deloitte Australia – Cyber Job Simulation	Forage	Jan 2026
▶ Tata – Cybersecurity Analyst Job Simulation	Tata Group / Forage	Jan 2026
▶ Tata – GenAI Powered Data Analytics Simulation	Tata Group / Forage	Jan 2026
▶ JPMorganChase – Investment Banking Job Simulation	Forage	Jan 2026
▶ Forage Academy – Data Labeling Job Simulation	Forage	Jan 2026
▶ Pathway to Progress	EduBridge Learning	May 2025

V O L U N T E E R E X P E R I E N C E

Community Programming Tutor Local Education Center	Sep 2022 – May 2023
▶ Mentored 10+ students in Java and Python fundamentals, achieving a measurable improvement in peer assessment scores across the cohort. ▶ Designed and led 6+ structured study sessions, elevating collaborative problem-solving skills and overall class engagement.
